**ORGANIZED BY
SCHOOL OF LAW
NORTHCAP UNIVERSITY, GURGAON
SECTOR 23A, PALAM VIHAR, GURGAON**

ABOUT THE ORGANIZER

Northcap University (formerly IITM University) was founded in 1996, to promote excellence in Technical and Management education by Educate India Society, registered under the Registration of Societies Act of 1860. The University was conceived in response to the acute deficiency of centers of higher learning in the country as also, the need to develop relevant human capital to meet the technology and management challenges of the 21st century. The founders had a clear and well defined mission - to build an unaided, self - financed University committed to delivering education of internationally recognized standards, a University that would go on to serve as an intellectual resource base in India and the sub-continent. NCU University stands faithful to the vision of its founders - it seeks students and faculty who take seriously their commitment to their community and their world, who are aware, active and involved. Students who graduate from NCU are expected to understand the technological, environmental and ethical challenges they will face in a world of accelerating change. Recognizing that those challenges will transcend the traditional boundaries between disciplines and nations, NCU encourages education that is distinctively interdisciplinary and international. The University's commitment to totally merit based decisions in every aspect of its operations constitutes an integral part of this learning environment; from selection of faculty and staff, to admission and evaluation of students. All programs of the University adhere to this core philosophy.

The NCU felt the need to establish a Law School to provide highest quality professional legal education to face the new challenges and dimensions of the internationalization of legal profession. NCU Law School strives to achieve excellence in legal education through globally relevant academic programs, outstanding faculty members, interactive teaching pedagogy, limitless clinical trainings and far-reaching projects. The innovatively conceived **5 year integrated B.B.A.LL.B. (Honours) Degree** Program of NCU Law School integrates the study of law with management in a semester mode for enhancing the employability of NCU Law Students and for a stress free legal education in an era of specialty and super specialty subjects. Learning at NCU Law School stretches beyond the boundary of prescribed syllabus. A team of distinguished Judges, Legal Practitioners and Consultants, Social Activists, Corporate Counsels, and Faculty Members of law schools across the country nurture the talent of the students. NCU Law School is a preferred destination for every "Law" aspirant and a benchmark for budding law schools of the country.

ABOUT THE WORKSHOP

The weaker sections all over the world are a cause for grave concern. Women in all societies experience various forms of discrimination and oppression. This discrimination hinders the collective participation of women in public life. In spite of the few progress made towards the emancipation of women, power remains a male prerogative, with men retaining economic, political and religious control. Another area of concern is transgendered people. One to four percent of the world population is of those persons that are not fully male or female and to give recognition to them is very perceptive issue of gender sensitization. The transgender people, as a whole, face multiple forms of oppression in this country and the world over. Discrimination is so large and pronounced 'especially in healthcare, employment and education, leave aside social exclusion. Gender sensitization is a tool and means in the direction to realize the objectives of the Equitable Society, Gender Equity and inclusive development without discrimination. Gender sensitization refers to the modification of behaviour by raising awareness of gender equality concerns. Gender sensitization may be seen as "the awareness informed disposition or propensity to behave in a manner which is sensitive to gender justice and equality issues." By gender sensitivity, we mean the level of awareness, appreciation of the need to maintain at reasonable levels the gender differentiation. Gender Sensitization is changing behaviour and instilling empathy into the views that we hold about our own and the other gender.

With this noble objective of making equality a living reality School of Law, Northcap University, Gurgaon, is pleased to announce A Two Day National Workshop on Equality, Justice and Gender Sensitization, with the aim to provide a platform to bring progressive ideas, analysis of available legal mechanisms, loopholes and suggestions for the said area. The workshop provides an opportunity to academicians, law students, scholars or any stakeholder to understand the concepts of gender, sex and gender equality and to put a small but effectual effort in this direction.
